

# Voice Bots in Real Estate: Driving Engagement & Conversions

# Challenges Faced by Real Estate Sales & Support Teams

High volume of leads with low qualification rates

Most inquiries don't turn into site visits or sales

Missed opportunities due to unavailability

Sales teams miss or delay callbacks, especially after hours

Time-consuming manual data entry

Agents spend valuable time filling CRMs instead of closing deals

# How Can Our Voice Agents Solve This?

Our AI voice agents handle every lead end-to-end — from the first call to the CRM update — with smart, scalable automation.

Instant response to every inquiry, 24x7

---

Auto-qualify leads via conversational flows

---

Multi-lingual support

---

Auto-detects lead status based on conversation

---

CRM integration for seamless data entry

---

Escalation to human agents when needed

---

# From Call to Insight - No Manual Effort Needed

- Connects with 60–80% of leads instantly
- Qualifies interest through natural conversation
- Identify serious buyers for **Site Visits** and **WhatsApp Engagement**
- Filters out low-intent leads automatically
- Auto-updates CRM with call outcomes and lead status
